Specification of Apprenticeship Standards for England

Following its introduction through the Apprenticeships, Skills, Children and Learning (ASCL) act, the Specification of Apprenticeship Standards for England (SASE) was published by the Department for Business Innovation and Skills, Department for Education and the National Apprenticeship Service (NAS) on 20 January 2011. The SASE can be found [here](#) along with the [press release](#) issued by the Minister.

The SASE sets out the minimum requirements to be included in a recognised English Apprenticeship Framework and compliance with the SASE will be a statutory requirement of the Apprenticeships, Skills, Children and Learning (ASCL) Act.

There are three key roles involved in ensuring that we have SASE compliant frameworks: proposer, developer and issuing authority.

Proposer - An organisation who has an idea for an Apprenticeship framework but who does not necessarily want to develop one, who is then encouraged to work with the relevant Sector Skills Council (SSC) to develop an appropriate framework.

Framework Developer - The organisation who will develop the framework for submission to the issuing authority.

SASE Implementation

The spreadsheet below has been designed to inform you of the transition from the current Blueprint compliant frameworks and the new SASE (Specification for Apprenticeship Standards in England) compliant frameworks. For more information please read below.

New SASE framework information

The information in the green table will indicate when new SASE (Specification for Apprenticeship Standards in England) is made available by issuing authorities and importantly, the date when NAS and the Skills Funding Agency make the frameworks available for funding.

Funding information

Also within the green table you will see information about indicative funding rates. We have set indicative rates for delivery of new SASE compliant frameworks both on and before 1 August 2011. Where new SASE frameworks directly replace current provision, we will continue to fund them at the existing Blueprint rate until the 31 July 2011.

Current Blueprint framework information

The information in the yellow table will help you to understand the timescales for the removal of current Blueprint compliant frameworks. Important note: Where a Blueprint framework has NCF qualifications in its framework, we have allowed a period of four weeks dual running. For clarification on when a current framework expires please use the data supplied in the 'Last date for new starts' column.

This information will be updated when new SASE compliant frameworks are added or current Blueprint frameworks are removed.

"Fareham College uses Sunesis to track all Employer Responsive activity, particularly Apprenticeships. The system is easy to use and is regularly updated to reflect any changes in funding. It allows total visibility of all learner progress, funding predictions and success rates. It is an invaluable tool in helping us plan for the future, and evaluate where we are now"
Claire Middleton, Business Development Manager, Fareham College

"Real Time Training Group have been using Perspective's Sunesis since October 2010. After a recent OFSTED inspection we decided as a company we wanted to head towards a shared, web enabled, Management Information System that could handle the funding body side, but also address learner progression such as tracking reviews and qualifications. The main advantage of Sunesis has been the ability to have our learner data shared across all parts of the organisation due to Sunesis being web enabled. The unit level detail is great, and the coding behind Sunesis is intelligent enough to drag in the full units and framework detail from the national database of qualifications. This saves the time and the effort of having to create your own qualifications from scratch."
Dean Sherlock, MIS Manager, Real Time Training Group

The image shows a tablet displaying the Lsect Perspective Sunesis interface. To the right of the tablet is a contact form with fields for Name, Job title, Organisation, Email, and Contact number. Below the form is a section titled 'How to claim your iPad' which states: 'If your organisation purchases one or more of the Sunesis software, you will receive a free iPad. We recommend that the iPad is used for reference prior to receipt, although that is up to you.' The Lsect logo and 'a subsidiary of Perspective' are at the bottom right. A glass of blue liquid is also visible.

- From 6th April 2011 there will be no new Apprenticeship starts against frameworks which do not comply with the SASE.

What is in the SASE - Intermediate / Advanced Level Apprenticeships

The framework developer, in consultation with the Issuing Authority, will decide the balance of credits. However, each framework must:

- consist of qualifications in the QCF and be a **minimum of 37 credits**.
- have a **competency based qualification** or element of an integrated qualification, which specifically relates to the occupation or job role and is based on the NOS. Must be a **minimum of 10 credits**.

SASE Background

The SASE is a statutory document under the Apprenticeships, Skills, Children and Learning (ASCL) Act 2009. Apprenticeship programmes must comply with SASE requirements by law from April 2011

The origins of the SASE came from the previous Government but the Coalition embraced most of the key aims and recently announced;

“Apprenticeships are at the heart of our skills strategy because they are valued by employers and sought after by learners. By enshrining these characteristics in statute we send a clear message to employers and learners that every Apprenticeship is a high quality investment in the skills they need for the future.”

John Hayes, Further Education, Skills and Lifelong Learning Minister – 20 Jan 2011

SASE Aims

The Governments stated key aims;

- To raise the profile of the Apprenticeship Brand and encourage more employers to recruit young people and adults
- All apprenticeships deliver high quality, nationally-recognised qualifications relevant to the skill, trade or occupation of the learner and employer
- All apprenticeships offer individuals appropriate training to achieve a good standard of literacy and numeracy (and ICT where relevant to the skill, trade or occupation)
- Every apprentice will receive at least 280 hours of guided learning per year (more later on this)
- Apprenticeship Agreements to establish a legal basis for the employer – employee (apprentices)
- Intermediate Apprenticeships will become the Level 2 option

Framework Content

SSCs (Issuing Authorities) shall develop Frameworks with the following content;

- A minimum combined total of 37 QCF Credits will need to be achieved via

ALPs Member Inbox (I)

1.Availability of SASE Frameworks –

- As of 14TH March 2011 only 3 Frameworks are formally SASE Compliant & on NAS Spreadsheet, therefore only 243 to go...!
- Sensible dual running periods need to be implemented to aid transition
- All current Framework Funding rates apply to the end of July 2011

2.GLH of ON & OFF the Job – What are the evidence requirements?

- **NAS Answer 1:** Must deliver the GLH as set out in the Framework and complete a 'declaration' when claiming the final certificate .
- **NAS Answer 2 :** There is no requirement to record individual Hours...?
- **Conclusion:**
 - In the absence of clear auditing advice, suggest that systems are devised to **RECORD** on and off the job from a QA perspective, highlighting the flexible and innovative methods of learning that takes place on the job.

3.Apprenticeship Agreement

- Delayed following intervention from ALP/AOC that highlighted a number of implementation issues

4.Preparing Staff and Resources to the SASE Changes

- Timely and Accurate info required from Issuing Authorities
- New systems and processes to be developed

5.Communicating the new set of Arrangements with Employers

- Explaining the new requirements in a way that retains employer buy in

6.Funding & Efficiency going forward

- 4.3% cut already announced for 19+ from August 2011, funding model to be simplified from 2012/13.
- 25+ Apprenticeships dependent on NAS discretion & SFA budgets
- Government wanting ever greater employment investment & Learner Loans 2012/13

Policy Developments

1. Coalition Government very supportive of the Apprenticeship brand with stated priority for

- Advanced Apprenticeships – Technician Level
- Higher Apprenticeships
- Question if this potentially devalues new Intermediate Apps level.?

2. Wolf Review very positive about Apprenticeships and suggested two related recommendations to Coalition;

- “employers should be subsidised if they offer 16 to 18-year-old apprentices high-quality, off-the-job training, and an education with broad transferable elements”
- And
- “anyone who fails to achieve a good pass [GCSE](#) English or maths pass must continue to study those subjects post-16

But....of the 645 below £500k....

14 Universities (exempt)

55 College (exempt)

115 only have ESF funding
(non-recurrent and many exempt)

235 have 16-18 Appren
(possibly exempt?????)

219 have no Appren
Of which 149 only TtG
and 33 only have ASL

7 providers with 19+ Appren

So will £500k quickly become £1m+?

SFA Policy Statement

Higher Risk Providers & Persons and Agency Contracting (03/11/10)

“a small number of providers have tarnished this otherwise positive relationship, and have achieved financial gain at the expense of both learners and the public purse, whether through ignorance or design.”

Additional criteria for rejection of providers

“previous activities that have resulted in significant repayment of funding (£100k or more)”

“two or more instances where the Agency’s staff have audited the provision of the bidder and identified significant concerns resulting in a qualified opinion”

ACTOR helps implement this

Can you afford not to charge higher fees?

- > All 19+ Appren co-funded, so funding halved
- > Additional 25% reduction for large employers

Skill Funding Agency considering lower future funding for providers not collecting fees now

Are you regularly re-profiling?

New academic year

Say 'thanks' for the slides at
<http://uk.virginmoneygiving.com/Lsect-for-HKF>

How does financial year impact on you?

2010/11 financial year (government budgets)

Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	2011/12			
				Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul

2010/11 academic year (contracts)

This can lead to an 'on-off-on' approach to profiling from the Skills Funding Agency

Do you think you will meet or exceed your current Apprenticeship allocation target for 2010/11?
