Annual policy document

“This document sets out the policy for apprenticeship funding in England, for new starts from 1 November 2021. It updates the policy that has been in place since 1 August 2021”

Await a new document and some key changes since

1. Some [Covid-19] flexibilities continue
2. £3k cash employer incentives ended (claims had to be in last month)
3. Increasing access to funding via online apprenticeship system for small employers now a priority for government

<https://www.gov.uk/government/publications/apprenticeship-funding>

The image shows the cover of a document titled 'Apprenticeship funding in England' from November 2021. It features the Department for Education logo at the top, the title in blue, and the date 'November 2021' at the bottom.

4

Covid-19 flexibilities ended

19 January 2022

This publication was withdrawn on 1 April 2022

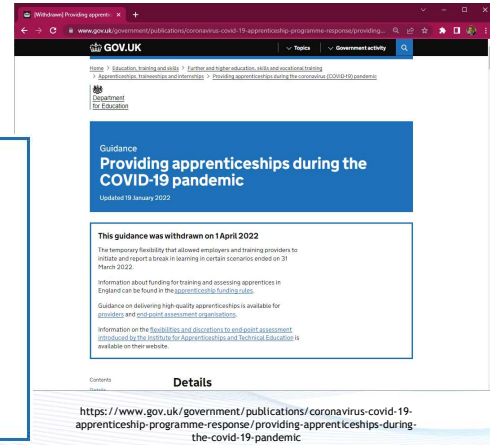

The temporary flexibility that allowed employers and training providers to initiate and report a break in learning in certain scenarios ended on 31 March 2022.

Information about funding for training and assessing apprentices in England can be found in the [apprenticeship funding rules](#).

Guidance on delivering high-quality apprenticeships is available for [providers](#) and [end-point assessment organisations](#).

Information on the [flexibilities and discretions to end-point assessment](#) introduced by the Institute for Apprenticeships and Technical Education is available on their website.

Seven EPA flexibilities became permanent

“From 1 January 2022 seven of the flexibilities (which apply to all apprenticeships) will be retained as permanent amendments”

Seven of the ten flexibilities will be retained as options to use beyond 1 April 2022. These are:

1. Observations taking place in simulated environments
2. Remote delivery of assessment (including invigilation)
3. Pauses being allowed between assessment methods during end-point assessment period
4. Assessments taking place outside of usual venues
5. Delivery of assessment methods in any order (when a specified order is in the assessment plan)
6. Exams/tests being online instead of on paper (where originally specified as paper-based only)
7. Gateway sign off being done remotely (were originally specified as having to be face to face)

“It only applies to those end-point assessment plans published before 1 April 2022. End-point assessment plans published on or after 1 April 2022 should have these flexibilities considered during their development and be built into the published version where applicable.”

6

Small employer reservation reset

8. Information: resetting reservation levels for employers who do not pay the apprenticeship levy from 1 June 2022

From 1 June 2022, the reservation levels for employers who do not pay the apprenticeship levy will be reset, enabling each of these employers to make up to 10 new reservations on the apprenticeship service to fund new starts.

This reset will give employers who do not pay the levy greater certainty over their recruitment plans for the year ahead. It is made in recognition of the important role that SMEs play in creating apprenticeship opportunities, particularly for younger people and those in disadvantaged areas.

Any reservations made before 1 June 2022 will not be affected and will not count against the new reservation levels from this date.

The reservation period for employers who do not pay the apprenticeship levy continues to be 3 months. “This means funds can be reserved for 3 months before the apprenticeship is planned to start.”

Achievement rates update

“For 2021 to 2022, education and training, apprenticeships and traineeships QARs are to be published at provider level. This is a change from 2019 to 2020 and 2020 to 2021, when we confirmed that we would not publish any provider-level QARs in response to Covid19.”

“We will produce provider level QARs and share these securely Ofsted.”

“We will not calculate timely QAR”.

5. Information: qualification achievement rates

We have now published the [following documents for Qualification Achievement Rates \(QAR\) 2021 to 2022](#) on GOV.UK:

- qualification achievement rates business rules 2021 to 2022
- apprenticeship qualification achievement rates technical specification 2021 to 2022
- traineeship qualification achievement rates technical specification 2021 to 2022
- education and training qualification achievement rates technical specification 2021 to 2022

These documents provide technical information about how we produce the QAR dataset and should be read alongside the business rules, which explain the methodology for calculating QARs for 2021 to 2022.

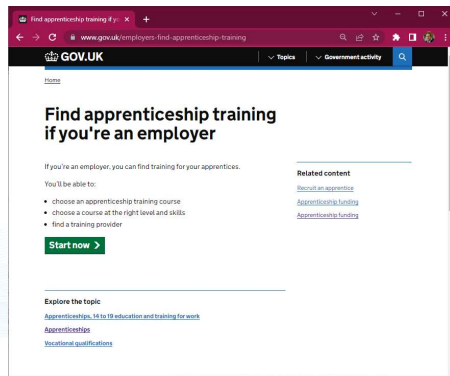

As referenced in the business rules, we will be sharing with providers in-year QAR data via the [View Your Education Data portal](#). In preparation for accessing the data, please ensure you have the correct IDAMS user access. The [IDAMS user guides](#) provide detail for creating access or checking your user permissions.

Apprentice feedback being added to tool

<https://feweek.co.uk/esfa-finally-launches-tripadvisor-style-feedback-feature-for-apprentices/>

7. Information: a new way to gather apprenticeship feedback

We have launched a new feature where apprentices can give feedback about their training. Allowing you to gather insights to help further develop your training programme.

Your apprentices can now give anonymous feedback from their [My Apprenticeship account](#).

The apprentice will be asked to agree or disagree with 12 questions in the feedback survey. They will then be asked to rate their training from 'excellent' to 'very poor.'

Your apprentices can start giving feedback 3 months into their training and can update it every 3 weeks.

As a training provider, you will be able to review the feedback from your apprentices in [Find apprenticeship training](#) once 10 apprentices have responded.

Employers and apprentices will also be able to view your performance ratings. This new feedback feature will be invaluable in helping you provide the best training possible.

If you require additional support using the apprenticeship service, visit our [help portal](#) where you can access help articles.

New apprenticeship Accountability Framework

Quality and supplementary indicators

We will use the following data as indicators of the quality of your provision when considering intervention:

- outcomes from Ofsted reports based on our existing policy [Ofsted Inspection and ESFA intervention](#)
- achievement rates, including compared to other providers delivering similar standards or in similar sectors
- retention rates and withdrawals, including compared to other providers delivering similar standards or in similar sectors
- employer ratings of providers on the apprenticeship service
- apprentice ratings of providers on the apprenticeship service (once this becomes available)

In addition to the above we will review further indicators to inform contract management decisions. These will be subject to change but may include:

- off-the-job training data (planned and actual hours)
- learners past their planned end date
- unusual changes to delivery patterns
- breaks in learning
- when apprentices are registered with an end-point assessment organisation

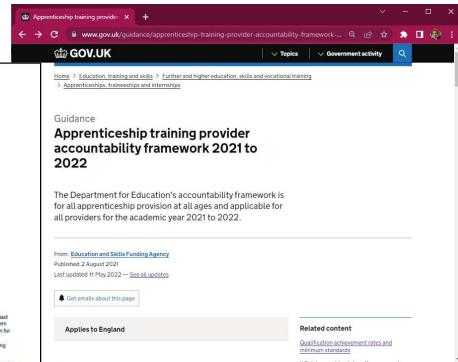

Apprenticeship Accountability Framework Technical Specification 2021 to 2022

For all age apprenticeships

Version 2.0: May 2022

This document sets out the general approach to applying the apprenticeship accountability framework, as first published in August 2021. It outlines the revised thresholds for 2021 to 2022, the current year for which quality indicators have been set. The specification has been updated to reflect information from chapter 1 and to include information about the thresholds for Ofsted Job Training (OTJT) intervention and retention rates.

We continue to welcome feedback on how we can make the specification clearer or better to understand. Please email feedback to provider.strategy@education.gov.uk by 1 September 2022. We will take the feedback received into consideration when we next update the specification.

Types of intervention

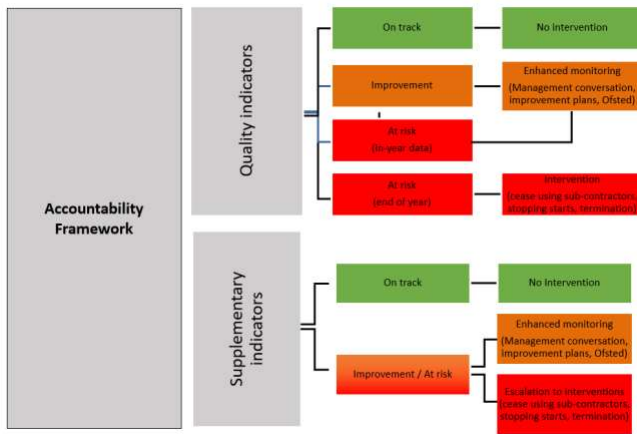

Table 2: illustrative examples of potential interventions

The list of potential interventions below is not an exhaustive list of available interventions and is included for illustrative purposes only.

Type of intervention	Description
Enhanced monitoring	Likely to include the provider being required to produce a quality improvement plan which will be challenged on reasonable progress and evidence of impact. More regular meetings to discuss planned improvements and/or impact of mitigating actions taken by the provider and in-year reporting of progress.
Conditions of funding/additional contractual obligations.	Likely to include improvement targets, usually linked to the provider's own improvement plans. Failure to meet the target(s) could result in termination or more conditions. May include restrictions on recruitment. This could be stopping starts on an apprenticeship standard or all starts. Restrictions would usually be time-based or linked to further reviews of quality indicators. Possible restrictions on sub-contracting. Could be used to remove the ability to sub-contract, especially where management of sub-contracting is evidenced as poor.
Termination	Used where the provider has demonstrated that they are incapable of improving, either through poor management or an inability to change within a reasonable timescale.

ESFA have been doing webinars about this - but all very new

Register of Flexi-Job Apprenticeship Agencies

Flexi-Job Apprenticeships

Flexi-Job Apprenticeships have been designed to ensure that those sectors and occupations where short-term contracts or other non-standard employment models are the norm can access the benefits of apprenticeships. They will be available to employers and apprentices in two ways:

- With the involvement of a Flexi-Job Apprenticeship Agency: where an agency employs the apprentice directly for the duration of their apprenticeship but arranges placements for the apprentice with host businesses.
- Without the involvement of an agency: where the apprentice is able to secure multiple short employment contracts directly with businesses that support the requirements of the apprenticeship. Supported by their training provider, the apprentice takes their learning and progress with them as they move between employment contracts and change employers. This model is often described as a Portable Flexi-Job Apprenticeship.

<https://www.gov.uk/government/publications/register-of-flexi-job-apprenticeship-agencies>

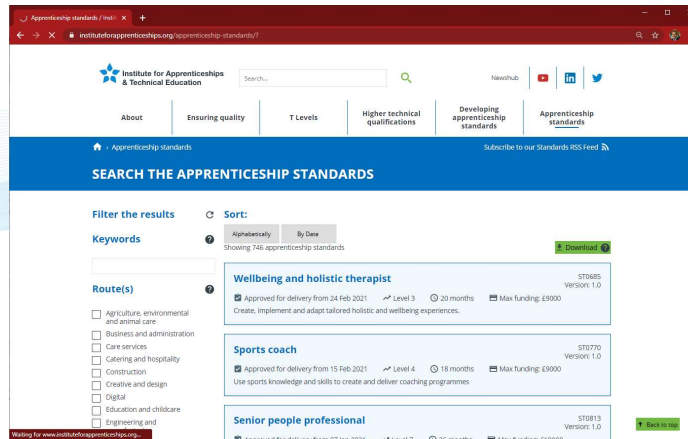

“Following an assessment process, we have admitted 16 organisations onto our Register of Flexi-Job Apprenticeship Agencies. In addition, we have awarded a total of £5m in funding to 11 of these organisations.”

Eligible costs review concluded

Eligible Costs:

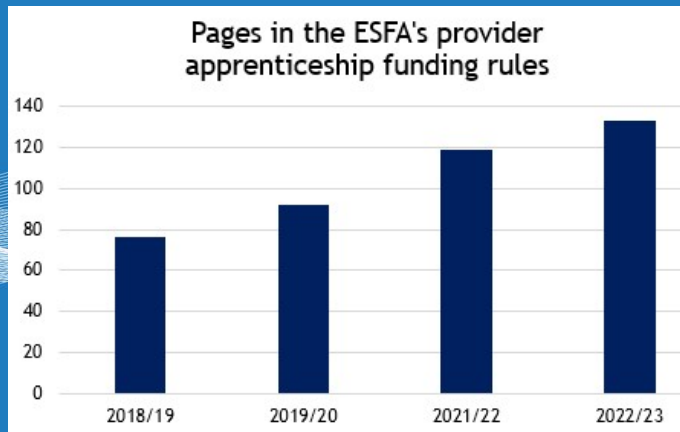

As a result of the Eligible Costs review, we have made initial assessment an eligible cost and have expanded on, and added more examples to, some of the current eligible costs. We have also added to the ineligible costs list too. We will shortly report back to the sector to formally conclude the review.

- Employers (levy paying)

Remember: if you are a training provider employing your own apprentices then the employer-provider rules will apply (**no profit allowed**)

Draft rules (2022 to 2023)

We are issuing these funding rules as a draft version to give you the opportunity to provide feedback on how we can make them clearer or better understood. Please email any suggestions to fundingrules.comments@education.gov.uk by 24 June 2022. Following a review of any feedback, we will issue a final version of the rules in July.

The 2022 to 2023 funding rules will apply to apprenticeships starting between 1 August 2022 and 31 July 2023.

Apprenticeship funding rules: August 2022 to July 2023
Summary of changes

Introduction

1. This document sets out amendments to the following documents:

- Apprenticeship funding rules and guidance for employers: August 2021 to July 2022 version 3
- Apprenticeship funding rules for employer-providers: August 2021 to July 2022 version 3
- Apprenticeship funding rules for training providers: August 2021 to July 2022 version 3

2. The funding rules form part of the terms and conditions for the use of funds in an employer's apprenticeship service account or for government-employer co-investment. You must read them in conjunction with your funding agreement with the Secretary of State for Education.

3. These rules will apply to all apprenticeship programmes starting on or after 1 August 2022.

4. We have identified the rules in the 2022 to 2023 draft funding rules that have changed from the 2021 to 2022 funding rules in the table below. The employer, employer-provider and provider paragraph numbers are denoted with the prefix E, EP or P respectively.

New rule for off-the-job

Off-The-Job Training:

From 1 August 2022 the off-the-job training policy will change. Currently an apprentice must train for a minimum of 20% of their own working hours; this means that an apprentice who works longer hours is potentially impacted by this link (i.e. higher working hours means a higher threshold for eligibility). From 1 August, the minimum volume of hours will no longer be linked to working hours; instead we will have a consistent figure, irrespective of the hours worked by the apprentice. This will be 6 hours per week (this figure was chosen as it represents 20% of 30 hours, which all part-time apprentices are currently doing). The 6 hours per week is for calculation purposes only; once calculated the programme can still be delivered flexibly.

This change must not dilute the existing requirement - to provide the right level of training to every apprentice. The volume of training that is delivered must be guided by the initial assessment of the apprentice and this may mean that an apprentice trains for more than 6 hours per week. This is a positive change, about simplification and fairness (particularly to those working longer working hours). 49% of audits indicate OTJ calculation issues and so we have strengthened some of the other rules in this area that are at the root of these issues.

New rules: We have amended the policy to remove the language of 20% of the apprentice's normal working hours. The new minimum off-the-job training requirement is 6 hours of off-the-job training per week for a full time equivalent (an individual who works 30 hours or more per week). We have included a minimum number of off-the-job training hours for a 52 week programme.

Clarification: We have made it clear that despite the new minimum off-the-job training requirement, the volume of training hours delivered must be supported by the initial assessment. Some apprentices and standards may need more than the minimum requirement.

Significant new rule for any price above cap

Total Negotiated Price:

Where your standard has a higher delivery cost than the assigned funding band (e.g. the funding band max is £10,000 but your delivery cost is £12,000) we no longer need you to report your delivery cost (i.e. the £12,000). The price you enter into the ILR and the apprenticeship service must be the funding band maximum minus the cost of any relevant prior learning you have agreed with the employer, minus any additional adjustment agreed with the employer (e.g. large cohort discount). The net effect of this change is that any savings (e.g. from RPL) are realised by the public purse rather than by the employer. The employer must still pay in full any difference between the top of the funding band and your delivery cost.

New rule: We no longer require the actual delivery cost of the apprenticeship on the ILR and the apprenticeship service, where this figure is above the funding band. The price that you enter into both the ILR and the apprenticeship service is the price that you are claiming from us (the top of the funding band minus the cost of any relevant RPL and any further discounts with the employer). You must enter the same price into the ILR and the apprenticeship service. You must make your own arrangements to collect any money due from the employer if the true value is above the funding band maximum.

P97
EP84
E82

Where the agreed price of delivery is above the funding band, the difference must be set aside and dealt with separately. It must not be included in the price that you enter onto the ILR or the apprenticeship service. This is so any RPL savings are attributed to the public purse rather than to the employer.

The price of an apprenticeship

New for 1 August 2022

P196 - New rule: We no longer require the actual delivery cost of the apprenticeship on the ILR and the apprenticeship service, where this figure is above the funding band. The price that you enter into both the ILR and the apprenticeship service is the price that you are claiming from us (the top of the funding band minus the cost of any relevant RPL and any further discounts with the employer). You must enter the same price into the ILR and the apprenticeship service. You must make your own arrangements to collect any money due from the employer if the actual value is above the funding band max.

We have removed the rule that said the main provider must not offset the negotiated price with the costs of any service provided by the employer.

New rule for RAA usage

Recruit an apprentice	Clarification: Whilst it is not mandatory for employers to use Recruit an apprentice (RAA), it is a condition of funding for all providers to offer this service where applicable (e.g. for new recruits).	P21 EP- E14	RAA is currently used by ~76% of active providers; this causes issues for candidates looking for central repository of all opportunities. We need to improve usage and better understand any barriers.
	New rule: Where an employer has declined the use of Recruit an apprentice, you must record the reason for this in the evidence pack.	P21.2 EP21.2 E14.2	

New rule for initial assessment

Initial assessment (new section)	New rule: We have outlined the requirements of an initial assessment. This includes the requirement for there to be a direct link between the productive job role and the apprenticeship standard; and the requirement for the employer to provide the individual with the appropriate support and supervision, even where the apprentice is working from home.	P23 EP23 E16	The rule to require a direct link between job role and the apprenticeship has been added due to a recent investigation. The rule relating the support and supervision while working from home was added as a result of queries during Covid.
---	--	--------------------	--

<https://www.gov.uk/guidance/apprenticeship-funding-rules#draft-rules-2022-to-2023>

22

New rule - formula to adjust price for prior learning

Recognition of prior learning and experience	New rules: We have outlined what the assessment of prior learning activity must include. This includes a new formula that must be used to reduce the price that is agreed with the employer, to account for prior learning.	P24 EP24 E17	16% of audits record errors with taking into account prior learning when agreeing the total negotiated price, content and duration. The changes provide more detail on minimum activity required. The introduction of a formula to be applied for reducing the price of the apprenticeship, is in response for more clarity on how to decrease the price of the apprenticeship.
---	--	--------------------	---

To reduce the total negotiated price you must:

P24.5.1 Calculate the percentage of prior learning that the learner has, as a percentage of the off-the-job training hours that you would deliver to an apprentice with no relevant prior learning for the same standard. For example, if the individual's prior learning accounts for 300 off-the-job training hours and typically, for the same standard, you would deliver 1,000 off-the-job training hours to an individual with no prior learning, this would equate to 30% prior learning.

P24.5.2 Reduce the price by at least 50% of the prior learning percentage, from the maximum funding band (the 50% reduction recognises fixed costs). For the example above, where the apprentice has 30% prior learning, this means there must be a reduction in price of at least 15% of the maximum funding band. This reduced price is the maximum that will be paid using apprenticeship funding (e.g. £8,500 for a £10,000 funding band).

P24.5.3 This new maximum funding amount becomes the starting point for further negotiation on price with the employer. Additional discounts could be applied, for example, where the apprentice is part of a large cohort.

•<https://www.gov.uk/guidance/apprenticeship-funding-rules#draft-rules-2022-to-2023>

23

Possibly the most important funding rule going into audit (more on audit later)

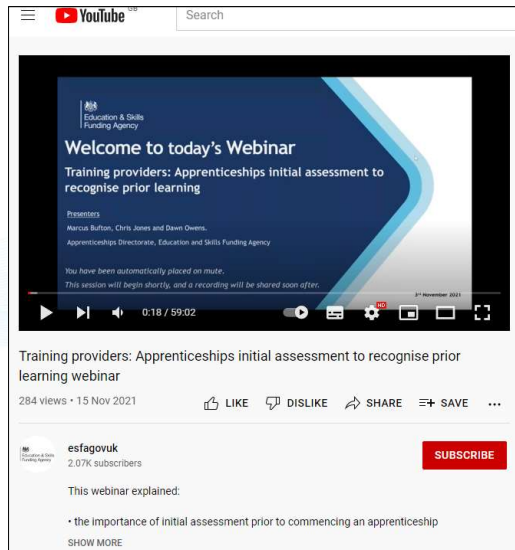

“You must account for prior learning and experience when negotiating a price with the employer. You must reduce the content, duration, and price, where the individual has prior learning necessary to achieve the apprenticeship. Funds must not be used to pay for skills already attained by the apprentice.”

Why is P25 not highlighted as significant? Play it safe and document the agreement of no prior learning

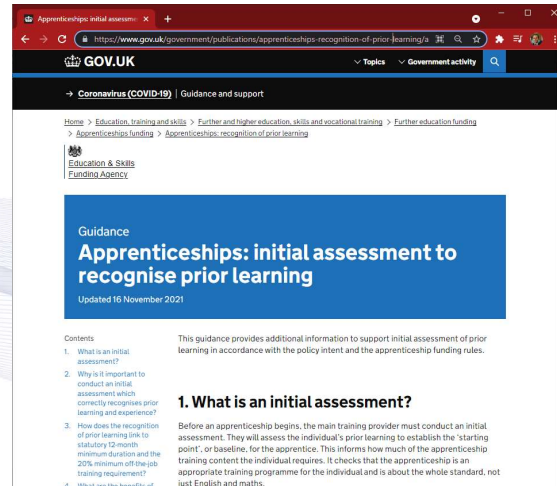

P25 Where an assessment has been made and the result of this assessment is that no relevant prior learning exists, you must agree this with the employer and document this in the evidence pack before starting the apprenticeship.

25

Term-time only OFTJ formula

Apprentices with term-time only contracts

P42 The off-the-job training requirement for an apprentice with a term-time only contract (e.g. those in the teaching profession) should be no less, as a minimum, than any other apprentice.

P42.1 Off-the-job training is calculated as though the apprentice is working 52 weeks per year (minus statutory leave). Once the calculation is made, the training can be delivered across the weeks specified in the contract (usually 39 contact weeks), if this is what has been agreed between the employer and provider. This will mean delivering more than the equivalent of 6 hours per week during term-time in order to meet the minimum requirements of the off-the-job policy.

<https://www.gov.uk/guidance/apprenticeship-funding-rules#draft-rules-2022-to-2023>

26

Actual OFTJ hours now need collecting for all apprentices

New rule: We now require actual off-the-job training hours to be recorded for all apprentices where planned off-the-job training hours have been submitted; this includes current learners.

P44
EP44
E37

To aid compliance work.

“If planned off-the-job training hours have been submitted in the ILR for the apprentice, actual off-the-job training hours must also be documented in the ILR, at the end of the practical period or in the event of a change of circumstance; this includes current learners on programme as of 1 August 2022.”

This is new - as currently actual off-the-job training hours are not required in the ILR if there has been a change of provider, change of programme or where an apprentice has been withdrawn from the programme or put on a break in learning.

<https://www.gov.uk/guidance/apprenticeship-funding-rules#draft-rules-2022-to-2023>

27

New ‘insufficient progress’ rule for withdrawn apprentices

Insufficient progress against training plan

Where the apprentice is more than 4 weeks behind on the planned delivery of off-the-job training (against the training plan), and the training has not been replanned or the apprentice has not been put on a break in learning. The replanning of training must be agreed with the employer.

New rule: Funds would be at risk if you are not able to show, upon request, an up to date training plan and current progress towards this plan.

P45.3.3
EP45.3.3
E38.3.3

P45.3.3

Where the apprentice withdraws from the programme and they have made insufficient progress towards their training plan, then funds will be at risk of recovery. By insufficient progress we mean the apprentice is more than 4 weeks behind on the planned delivery of training, but the training has not been replanned or the apprentice has not been put on a break in learning. The replanning of training must be agreed with the employer.

New section on 'progress reviews'

Progress reviews	New rules: We have added a progress review section and documented the minimum requirements of this activity.	P52-P53 EP52-53 E45-E46	We have added a new section for progress reviews, to guide what must be covered, due to queries and audit issues
-------------------------	---	-------------------------------	--

P52	A progress review, to discuss the progress to date of the apprentice against their training plan, must be carried out every 8-12 weeks. This should be a three-way discussion involving the provider, employer, and the apprentice.
P52.1	This is different to the required monthly check associated with learning support funding (see paragraph P73.1).
P53	The minimum requirement of the progress review is that it will:
P53.1	Check progress against any actions agreed at the previous review, including any training that has been delivered since the last review;
P53.2	Check overall progress of the apprentice against their agreed training plan, documenting any slippage against the volume of planned off-the-job training;
P53.3	Allow for any off-the-job training evidence, that is outside of the provider's control, to be discussed, agreed, collected, or documented;
P53.4	Discuss any concerns that the provider, employer, or the apprentice has;
P53.5	Discuss any new information / potential changes of circumstance that might impact on the training plan. This could include any additional training required, or any additional prior learning or learning support needs that have come to light since the original initial assessment and or the last progress review. Changes to the training plan may require the price to be renegotiated;
P53.6	Provide for an opportunity to update the training plan (e.g. where it is necessary to replan any off-the-job training); and
P53.7	Agree and document actions for the next review. The record of the progress review must be signed and dated by all parties (apprentice, employer, provider).

Line-manager required

New rule: To reflect that individuals who are self-employed as a sole trader are ineligible for funding (this previously said self-employed).	P67.2 EP67.2 E58.2	We have also received a high number of eligibility queries where there was no separate line manager and have reviewed our policy in relation to who we will fund.
New rule: To reflect that a shareholder / director with no separate identifiable line-manager to undertake the role of 'employer' is ineligible for funding. The same person must not sign the apprenticeship agreement as both the apprentice and the employer	P67.3 EP67.3 E58.3	The role of the employer is key in an apprenticeship (i.e. on-the-job training, support and mentoring, agreeing the training plan, monitoring progress). We do not think this would be a quality apprenticeship without a separate, identifiable line manager.
New rule: To reflect that if, during their programme, an apprentice becomes unemployed, self-employed as a sole trader, or becomes a shareholder / director with no separate identifiable person to undertake the role of employer, they will no longer be eligible for funding and must be reported on the ILR as having withdrawn from the apprenticeship.	P67.3.1 EP67.3.1 E58.3.1

Initial assessment costs now eligible for funding (finally!)

Eligible costs	New rule: We have added initial assessment as an eligible cost.	P95.1 EP82.1 E80.1	Changes to the eligible costs list have been made as a result of the eligible and ineligible costs review, carried out in 2021.
-----------------------	--	--------------------------	---

P95 For main providers eligible costs for the delivery of training and on-programme assessment (that can be included in field "TNP1" on the ILR) are limited to the following:

P95.1 Initial assessment

P95.1.1 Initial assessment to confirm learner and programme eligibility (see paragraph P23).

P95.1.2 Administration related to the subsequent enrolment (onboarding) of the apprentice. This can include the collection of evidence to support the initial assessment, supporting the employer with their apprenticeship service account and to complete the apprenticeship agreement; and developing and agreeing the training plan with the employer and apprentice.

Ineligible costs

New for 1 August 2022

P99 - New rules: We have restructured the section and added a number of new ineligible costs (for field TNP1) as a result of the eligible costs review – these costs did not previously appear in the funding rules. We have also tried to structure the ineligible costs, where possible, into provider costs and employer costs (and would welcome feedback on whether this is useful).

P99.8 - Clarification: We have expanded on the financial inducement information and provided examples.

P99.6 Mock testing (relating to the end-point assessment)

More focus on banning inducements

This year (20/21)

P108 You must not pay inducements, or any other payment not authorised by us, to an employer, another training provider or to an end-point assessment organisation in relation to any part of the apprenticeship programme.

Next year (22/23)

P99.8 Financial inducements

P99.8.1 You must not pay financial inducements, or any other payment not authorised by us, to an apprentice, employer, another training provider or to an end-point assessment organisation in relation to any part of the apprenticeship programme. This includes bonus payments to apprentices or employers for signing up and / or completing a programme; and where an employer who tenders for provision wants apprenticeship funding to pay for training extras in excess of the apprenticeship requirements.

Significant English and math rule changes for level 2 apprens

Support for English and maths training	<p>Clarification: We have clarified that English and/or maths must be provided for all apprentices where they do not have prior attainment in these subjects at level 2.</p> <p>New rule: To reflect the policy change that level 2 apprentices who do not have level 1 in English and maths must prioritise achieving level 1 in these subjects and are only required to work towards level 2 English and maths where they have time remaining to make meaningful progress, once they have achieved level 1. <u>The requirement for apprentices assessed at level 1 but without a level 1 qualification to take level 2 before achieving level 1 has been removed.</u></p> <p>Clarification: To reflect that apprentices must be assessed at level 2 for all three units of the English Functional Skills and the assessment for maths.</p>	<p>P123 EP103 E100</p> <p>P125.1 and 129.1 EP105.1 and 109.1 E102.1 and 106.1</p> <p>P129.2 EP109.1 E106.2</p>	<p>This addition is to reflect that we want apprentices to have the opportunity to achieve English and maths qualifications as part of their apprenticeship, up to and including Level 2 in these subjects.</p> <p>The change is in recognition that Level 2 English and maths is at least two levels of above the prior attainment for those who have not achieved a Level 1 on start. We want these apprentices to prioritise achieving Level 1 English and maths, and the overall apprenticeship.</p> <p>For Level 2 apprentices taking Level 2 Functional Skills assessments, apprentices must be given the opportunity to pass individual components of the Level 2 English Function Skills, so they can go on to complete the full qualification if they do not pass first time.</p>

This year (20/21)

P138.2 Where the apprentice does not already hold approved level 1 qualifications, but is judged by the main provider to be working at level 1 standard in English / maths:

Apprentices must start, continue to study and take the assessment for level 2 English and maths (Functional Skills level 2 or GCSE). If they do not achieve a level 2, you must then ensure they take the assessment for level 1 English and / or maths – this is because they must secure the level 1 qualification in order to complete their apprenticeship.

Next year (22/23)

P129.1 Where the apprentice holds neither level 1 nor level 2 approved qualifications:

Apprentices must study towards and achieve English and maths qualifications of at least level 1 (Functional Skills level 1 or GCSE grade E or 2). Once level 1 (Functional Skills level 1 or GCSE grade E or 2) is secured, apprentices must work towards level 2 English and/or maths (Functional Skills level 2 or GCSE) where there is time to make meaningful progress (a minimum of three months remaining prior to gateway).

New subcontracting rules

Contracting and subcontracting	<p>New rule: The main provider must not only deliver elements taught by online or distance learning.</p> <p>New rule: In accordance with your ESFA contract(s), you must meet the ESFA subcontracting standard as detailed in the subcontracting standard guidance (the auditors guidance is currently in development and an update will follow). The external audit report must now be submitted via the ESFA document exchange (rather than by email).</p>	<p>P163 EP143 E139</p> <p>P187 EP166 E-</p>	-
			Updated to include the reference to the new standard.
<p>P163 You must directly deliver some of the apprenticeship training and / or on-programme assessment associated with each employer's apprenticeship programme. By apprenticeship programme, we mean all of the apprentices that you have been contracted to deliver training to, on behalf of any one employer, irrespective of occupational area, standard or level.</p> <p>P163.1 The volume of training and / or on programme assessment that you directly deliver for each employer must have some substance and must not be a token amount to satisfy this rule. It must include delivery of off-the-job training (i.e. new knowledge, skills, and behaviours relevant to the standard).</p> <p>P163.2 It must not be limited to a brief input at the start of each employer's programme or involve delivery to just a few of a large number of apprentices. It does not include simply delivering English or maths, elements only taught by online or by distance learning, or aspects of the apprenticeship which all apprentices must have, such as safeguarding or British values.</p> <p>P163.3 You can find further information in the document Using Subcontractors in the Delivery of Apprenticeships.</p>

Helpful(?) guides - including checklist

Education & Skills Funding Agency

Apprenticeship checklist for training providers

This checklist has been developed by the Education and Skills Funding Agency for use by apprenticeship training providers. It outlines criteria and guidance to support the delivery of apprenticeship training and can be used to identify areas of improvement or to induct new staff.

The checklist has been designed for your **internal use** to support training delivery and is **not mandatory**.

The checklist has been divided into 5 worksheets: preparation, starting delivery, ongoing delivery, completion, and inspection and intervention. Each worksheet provides a list of criteria, links to relevant guidance and a space for you to add comments, evidence, actions and more.

		No allocations (not even for co-investment) and ESFA pay for English and maths and incentives	No allocations (not even for co-investment) and ESFA pay 100% for English and maths and incentives

40

Reminder**Working out if employer should be levied or not**

HMRC advice was that if employer payroll was £2.8m or more last year then they should register for paying the levy

The government will not identify which employers are levied. So you will have to do your own homework. Companies House and Charity Commission might be a good place to start.

For example, in etc venues accounts their payroll is £7m (all England)

$(£7m \times 0.005) - £15,000 = £20,000$
 $£20,000 / 12 = £1,667$ monthly tax
 $£1,667 \times 1 \times 1.1 = £1,883$ monthly credit
 $£21,996$ annual levy credit

For example, BBC accounts say in their payroll is £990m (let's assume 80% for England)

$(£990m \times 0.005) - £15,000 = £4,935,000$
 $£4,935,000 / 12 = £411,250$ monthly tax
 $£411,250 \times 0.8 \times 1.1 = £361,900$ monthly credit
 $£4,342,800$ annual levy credit

If their monthly pot runs out they switch to 5% cash contribution in return for 95% ESFA funding. Unused levy pots fund non-levied employers plus top-up, incentives, English & maths etc (is the theory)

41

IfATE consultation outcome should be published any time now...

Update 7 July 2021

4.1 Apprenticeship Funding: Eligible Costs Review:

We undertook a consultation earlier this year on the eligible and ineligible costs of training and on-programme assessment. We would like to thank the sector for responding so positively to the consultation which received 78 responses. We are considering our response to the consultation and any potential changes to eligible and ineligible costs as part of the Government's planned spending review in 2021. We will provide a further update towards the end of the year.

Reminder**Other funding factors** (not funded by levy credit but would come out of non-levy allocation)

£1,000 employer incentive for 16-18s and 19-24s who have previously been in care or who have a Local Authority Education, Health and Care plan. Paid to employers in two equal instalments at 3 months and 12 months. This will be paid to the provider and must be passed on to the employer within 30 working days

£1,000 provider incentive for 16-18s and 19-24s who have previously been in care or who have a Local Authority Education, Health and Care plan (plus for one year an extra 20 per cent of the upper limit for FRAMEWORKS ONLY). Paid to providers in two equal instalments at day 90 (3 months) and day 365 (12 months).

£1000 for care leavers, paid to provider 60 days from start and must be paid in full to apprentice within 30 days.

No levy or employer contribution for 16-18s and 19-24s who have previously been in care or who have a Local Authority Education, Health and Care plan at employers with fewer than 50 staff

For additional learning support the ESFA will pay providers up to £150 a month, plus additional costs based on evidenced need

FRAMEWORKS ONLY: Additional provider payments for apprentices who live in the top 27% deprived areas. £600 for top 10% of deprived areas, £300 for next 10% range and £200 for the next 7% range

English and maths at level 1 and 2 funded directly by the ESFA at £471 for each qualification (no separate funding for ICT)

Version 1 changes

Entity: [Prior Attainment](#)

Type of change: New entity

Details of change:

A new Prior attainment entity has been added to improve the data collected for prior attainment.

This contains two new fields, Prior Level and Date applies from. The previous Prior attainment field has been removed.

Field: [Prior Level](#)

Type of change: New codes

Details of change:

Two new codes have been added to the prior attainment code list.

- Level 2 (code 3)
- Level 3 (code 5) The previous code 'Other qualifications below level 1' has been removed.

Field: [Prior Level](#)

Type of change: Revision

Details of change:

The prior attainment code list has been renumbered to reflect the updated levels.

Field: [Prior Level](#)

Example report and guidance

22A-212: Apprenticeship planned durations

Funding model: 36

Summarises by apprenticeship the count of apprenticeships starting on or after 1 May 2017 according to the planned duration.

For each apprenticeship and total negotiated price, this report groups by planned duration the number of learners. This enables review of the spread of planned durations for each apprenticeship programme.

Where providers deliver the same apprenticeship programme at the same price, it is reasonable to expect largely similar planned durations. Providers should be able to justify any wide variations in planned durations for delivery of the same apprenticeship programmes.

Look for apprenticeship programmes with learners on significantly different planned durations. For any individual apprenticeship programme, use report 22A-103 (All learners and learning aims within the new apprenticeship programme) to identify the learners affected and check whether there is any commonality between groups of learners and planned durations, such as whether they have the same employer.

Seek to establish the provider's reasons for such disparity and consider whether they are reasonable. In particular, consider whether it is appropriate to charge the same price for apprenticeship programmes that the provider plans to deliver over significantly different durations.

<https://www.gov.uk/government/publications/ilr-data-provider-data-self-assessment-toolkit-pdsat>

55

Example report and guidance

22A-216: Planned off-the-job training hours

Funding model: 36

Identifies apprenticeship programmes with planned off-the-job training hours that may not meet the minimum requirement.

For each learner, this report uses the apprenticeship programme's planned duration, statutory annual leave entitlement and the least possible employment hours per week derived from the code associated with the employment status monitoring type *EII* (Employment intensity indicator) to calculate the least possible minimum off-the-job training requirement. For learners appearing in this report, the number of planned off-the-job training hours recorded in the ILR is lower even than this calculated minimum, meaning that their apprenticeship programme does not contain at least the minimum required amount of off-the-job training, risking the apprenticeship's eligibility for funding.

The provider must check each learner listed and correct the planned off-the-job training hours accordingly.

<https://www.gov.uk/government/publications/ilr-data-provider-data-self-assessment-toolkit-pdsat>

56

Example report and guidance

22A-217: Actual off-the-job training hours compared to those planned

Funding model: 36

Identifies apprenticeship programmes with fewer actual off-the-job training hours than planned off-the-job training hours.

Use this report for ring-fencing and additional testing where you identify errors relating to the delivery of insufficient actual hours of off-the-job training.

It is quite feasible for the number of actual off-the-job training hours recorded in the ILR to be fewer than the number of planned off-the-job training hours, such as where an apprenticeship is delivered over a shorter duration than that planned³². Where the actual off-the-job training hours are fewer than those planned, the provider, employer and apprentice must sign a summary statement confirming their agreement to, and satisfaction with, the quantity of training delivered. Providers must be able to supply such evidence to justify any instances appearing in this report.

Where the evidence does not confirm this, or does not exist, funding for an apprentice's programme may be invalid and subject to recovery.

<https://www.gov.uk/government/publications/ilr-data-provider-data-self-assessment-toolkit-pdsat>

57

Example report and guidance

Checking DSAT reports can also help you find funding you might not have claimed but are entitled to

22A-218: Apprenticeship completions

Funding model: 36

Identifies apprenticeship standard programmes recorded as complete but with no completion date.

This report will assist providers in ensuring that they claim completion payments for apprenticeship standards.

Once an apprentice has completed the end-point assessment, the provider can report the completion in the ILR by recording *Completion status* = 2.

However, to trigger a completion payment, the provider must also return the completion date (i.e. the date that the end-point assessment was completed) in the ILR field *Achievement date* (regardless of the outcome).

Where a provider omits to return the *Achievement date* for an apprenticeship standard completion (where the practical period ended on or after 1 August 2019), it risks missing out on the completion payment.

The provider should review all records listed with a view to updating the *Achievement date*. It must accurately record the date that the end-point assessment was completed and to secure the completion payment, it must be returned before the final R14 hard close for the funding year in which the activity takes place.

Note that whilst this action will ensure that the completion payment is not affected by any omissions to these fields, there are other variables that may affect the completion payment, such as the collection of co-investment from the employer, where applicable.

Financial assurance: monitoring post-16 funding Focus on FRM37 report

Using the post-16 monitoring reports dashboard

We will share the data we analyse with you through the post-16 monitoring reports dashboard every month from December (RD4), with the latest school census data (S02/S05) being incorporated in the following spring. Our expectation is that you will use the dashboard as part of your routine data quality and submission cycles to proactively address potential errors.

The dashboard contains data which will help you to identify and understand the highlighted issue(s) including details of qualifications previously achieved by the learner, other providers involved in delivery and SLC data from the [Learning Provider Portal](#). We also include calculated earnings for the delivery so that you are aware of the potential funding impact if you have not corrected errors by year-end.

We will continue to use the same report numbering convention across years for consistency and to avoid confusion. If we remove any reports from the plan, any new ones added will have a new unique number. We will publish screenshots to accompany this guidance prior to the December RD4 release.

Accessing the dashboard

To access the post-16 monitoring dashboard, you will need to log into [View your education data](#). You will need an [IDAFS account](#) with the 'view your education data - post-16 monitoring' user role and associated with a UKPRN to access the dashboard securely.

Your organisation's super user will be able to grant you the correct user role. Once successfully logged in, you will have the option to select 'Data quality and assurance', following which you should see a link to the 'post-16 monitoring reports dashboard' along with any other dashboards you have access to.

Financial Assurance: Monitoring post-16 funding for 2021 to 2022

Updated 26 January 2022

Applies to England

Introduction

We monitor the data reported to us as part of our assurance work. We monitor data from the Individualised Learner Record (ILR), School Census (SC), and other sources such as the Earnings Adjustment Statement (EAS) and the Student Loans Company (SLC).

This desktop review of how the funding system and funding rules operates has the following aims:

- to identify possible errors in the funding claimed for post-16 delivery that require further investigation
- to improve the overall quality of the data reported
- to assure us that the provision we buy meets our published funding rules
- to inform our standard business processes for assurance, audit, end-of-year payment and reconciliation
- to support the development of policy (existing and new policy development)
- to ensure benefits are realised and policy reaches its intended target group

Changes and focus on FRM37 report

FRM37 – Apprenticeship off-the-job training hours below the minimum

Changes from previous funding year

Previously an internal report.

Update December 2021

Revised to include actual off-the-job training hours. From 2021 to 2022, FRM37 reports programmes where either the planned or actual off-the-job training hours are below the 20% minimum.

Funding streams reviewed

Apprenticeships from May 2017

Relevant guidance

To be eligible for government funding at least 20% of the apprentice's normal working hours, over the planned duration of the apprenticeship practical period, must be spent on off-the-job training.

If the apprentice works less than 30 hours per week, they are considered to be part-time, and you must extend the duration.

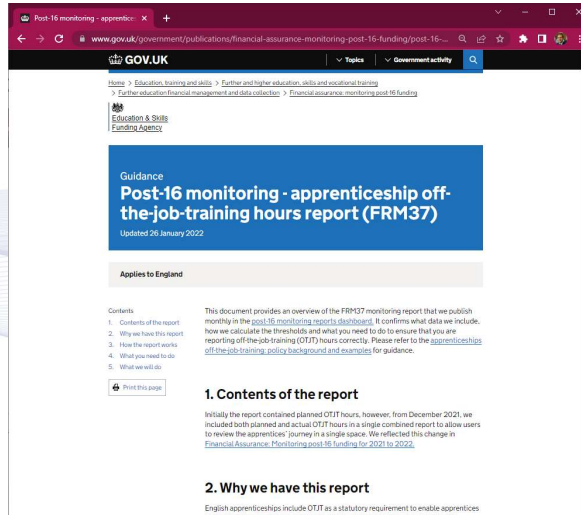

English and maths training, up to and including level 2, does not count towards the minimum 20% off-the-job training requirement; where required this must be delivered in addition to the minimum requirement.

What you need to do (ILR providers)

Review evidence, correct as necessary.

What we will do (ILR providers)

Request evidence, determine action.
